

**Mitch D. Weaver**  
**Vice President & General Manager**  
**Systems and Functional Verification**

Mitchell D. Weaver is Vice President and General Manager of the Systems and Functional Verification Division reporting to Moshe Gavrielov, Executive Vice President of the Verification Division. Weaver is responsible for worldwide investment strategy, positioning and implementation of EDA technologies such as system-level design and functional verification solutions.

Well known in the semiconductor and the electronic design automation (EDA) industries, Weaver brings more than 25 years of executive and senior managerial experience to his new position. Prior to joining Cadence, Weaver most recently was president and COO of TransLogic Technology, a semiconductor intellectual property start up company. Previously, he spent 15 years at HP, serving in various senior positions ranging from member of the technical staff to general manager. In addition, during nearly 10 years at Mentor Graphics, Weaver successfully managed multiple electronic design automation software product lines, ranging from digital and analog simulation to hardware/software co-design.

Weaver holds bachelor and master of science degrees in electrical engineering from the University of Colorado and Colorado State University, respectively.
